

## **Century Masonic Lodge 190 (Faith Court No. 18) Greeley**

\*This information was revived from S.K. Jason Deselms\* Still waiting for information from the lodge.

Good afternoon. Hope you're both doing well. I wasn't sure if Chapmans or Lorita was planning on responding—I emailed them both earlier this morning but haven't heard back yet from the Chapmans. Lorita was dealing with a few health issues so asked me to go ahead and respond—my apologies if I'm overstepping. Deb and I were at Rainbow last night so we went ahead and did some looking at Faith Court's building.

#1 The "full occupancy" notice inside the front door indicates that 230 is the maximum number of people. We didn't see anything that separated the dining room, lodge room, etc. but Deb and I were guessing around 25-30 in the lodge room with social distancing and adding a few chairs along the sidelines. I know at Star's last O.V. in January there were 80 people or so but that was before any restrictions.

#2 The actual lodge room dimensions are 31 feet wide by 47 ½ feet long which would be about 1472.5 square feet.

#3 Hand sanitizer and disinfecting wipes are available near the front door.

#4 Only Rainbow is currently meeting at the lodge—temperatures were taken at the meeting on 8/3 but we basically just have two families of girls and the one family arrived late last night so I'm not positive if temperatures were taken last night.

#5 Social distancing could be maintained but not easily if a few additional sideline chairs were added.

#6 Yes but, again, only Rainbow is currently meeting (we're not aware of any restrictions anyway).

#7 Masks have been worn at all Rainbow meetings.
